DEVOID OF FEATURES

Speculation in Wall Street Continues Dull and Uninteresting.

Sugar Stocks Received the Largest Share of Attention-Indianapolis Board of Trade Not in Session.

At New York, yesterday, money on call was easy at 101% per cent., the last loan being made at 1, closing at 1 per cent.

Prime mercantile paper, 31/2651/2 per cent. Sterling exchange was steady with actual business in bankers' bills at \$4.87@4.87% for demand and at \$4.84%@4.84% for sixty days; posted rates, \$4.85\2@4.88\2; commercial bills, \$4.83/014.831/4.

Silver certificates, 69%c bid. Bar silver

closed at 69%c per ounce; at London, 32d. Total sales of stocks yesterday amounted to 142,300 shares. There was no increase of activity on 'Change, and, if anything, the speculation was less interesting and devoid of feature than on any of the days that have preceded. The return of President Reinhart, of the Atchison road, giving flat denial of all the unfavorable rumors current during his absence created scarcely a ripple of interest, the only evidence of increased attention to the shares being slightly larger sales and, contrary to what might be expected, a decline in both stocks and bonds. St. Paul was pressed for sale on a renewal of the reports of the decreased earnings and predictions that the earnings of the second week in December would show a very small loss. The grangers naturally suffered sympathetically, but, except St. Paul, which shows a decline of 11/2 per cent, falling off on the other grangers was confined to fractions. Sugar received the largest share of speculative attention and, with the exception of a decline of 1/4 at the opening and a reaction of % during the morning on a bear raid, advancing steadily on good buying until late in the afternoon selling up 3% per cent. from the lowest point. Realizations caused a reaction of % in the late dealings, with a final re-covery of a half point, the gain on the day being 2% per cent. The preferred shares advanced 1% per cent. Consolidated Gas on purchases of 1,000 shares rose 3% per cent. The industrials were the strongest shares on the list and closed generally at an advance. A majority of the shares traded in recorded a decline on the day's transactions, which was fractional except in three cases-Pittsburg & Western pre-ferred, which is down 1; St. Paul, 1%, and Evansville & Terre Haute, 11/2 per cent. Erie was neglected on the exchange, but rumors were rife concerning its affairs, and declared that the reorganization committee had decided on a plan which J Pierrepont Morgan was asking to finance and which provides for a blanket 5-permortgage to cover the seconds funded fives incomes, collateral trusts and floating debt and furnish sufficient capital to run the road for several years without running the risk of having it again in

million dollars. The report of the commit-tee is anxiously awaited. The general market was weak in the late dealings, Dising being the feature, selling off 2 per cent. on a vigorous bear raid with a re covery of 1/4 per cent. in final transactions. The market closed heavy. In the railway and miscellaneous bond market a weak tone prevailed all day, some few issues showing an improved tone toward the close. Government bonds were quiet. State bonds were inactive.

financial difficulties before the plan of re-

organization shall have had a chance to

work. The amount of the blanket mort-

gage was, estimated at sixty to seventy

TRADE AWFULLY SICK

Dun & Co.'s Report Shows a Gloomy and Unhealthy Condition.

Number of Failures on the Increase and Liabilities Alarming - Bradstreet's Review.

NEW YORK, Dec. 15 .- R. G. Dun Co.'s weekly review of trade says: It is proof of the enormous vitality of the country that while mills are stopping in every section and the army of unemployed is larger than it has been for years, other mills are constantly starting up to answer the demand which a single year of unprecedented disaster has only diminished. Trade still waits as much as it can, and yet the volume of business on a mere hand-to-mouth basis is such as would have been large a few years ago. The fierce struggle of the Pittsburg region for business drives prices to the lowest point ever known; \$11 for Bessemer iron and \$16.75 for steel billets, takes away nearly all new work from the East and West, where depression increases. Wheat receipts at the West have been 3,291,872 bushels, against 5,548,913 bushels the same week last year, and Atlantic exports only 596,704 bushels, against 1,879,378 bushels last year. Stocks in sight have increased rapidly, but prices declined I cent, with sales of only 4,690,000 bushels here. Corn receipts were very large, 3,643,620 bushels, against 2,231,390 bushels last years, and exports were fully maintained, the price yielding 1/2 cent. Pork packing at the West exceeds last year, and prices droop, in spite of reports that hogsare proving of poor quality. The sugar crop of Cuba is estimated at a million tons, but prices as yet are fairly steady. Cotton receipts have been very heavy, 71,000 bales larger than for the same week last year, with exports only 12,000 bales larger, and takings of Northern spinners decreasing, but prices advanced 3-16c.

machinery establishment for \$1,000,000, an iron works for \$500,000, a heavy tobacco dealer for \$500,000, a lumber concern for \$150,000, and a dry-goods concern for \$150,000, making \$2,500,000 for five failures. The reported liabilities of firms in the first week 676 the previous week, including \$2,600,000 of trading and \$1,700,000 of manufacturing

Bradstreet's to-morrow will say: "Aside from a moderate improvement in demand, in one or two particular lines at St. Louis, Milwaukee and Louisville, at Savannah Chattanooga and Houston, none of which have special significance, general trade remains as dull, in many instances duller than before. Mercantile collections West and East are somewhat improved. At Chicago general trade is of the small order variety, there being no rush in any line. At St. Louis activity is most noticeable among jobbers of shoes, while sales of dry goods and hats have declined. Larger dealers at Kansas City and Omaha report reorders the feature, but at Milwaukee a somewhat improved demand for clothing and kindred lines of trade is the outcome of colder weather. St. Paul reports a light trade in a few leading lines, the greaest activity being among shoe manufacturers. At Duluth there are no evidences of a trade revival, and at Minneapolis quiet pervades all lines

WHEAT WAS WANTED

Reduction of 80,000,000 Bushels Bar iron, 1.70@1.80c; horseshoe bar, 2%@ from Former Russian Estimate.

> Predicted Fall in the Mercury Assisted in Creating a Demand-Corn Firm and Provisons Lower.

CHICAGO, Dec. 15 .- Wheat rallied to-day from yesterday's break on a reported decrease in the Russian wheat crop, good export clearances, light Northwestern receipts, prospect of a cold wave and the consequent buying. The result of the day's trading was an advance of %c in wheat, %c each in corn and oats and another drop in the price of provisions. Wheat opened with sales at yesterday's closing figures, 671/sc for May and %c lower, but many traders were anxious to buy at the low prices and an immediate advance was scored. Schwartz. Dupee & Co., H. V. Lester & Co., F. G. Logan & Co. and Norton & Worthington snapped up the early offerings, and in a half hour May had climbed 16c. The news which started the buying was a report that the previous estimate of the Russian wheat crop had been reduced 80,000,000 bushels. The weather was mild, with a pouring rain, but the Weather Bureau reported that the mercury would be 20 degrees lower within as many hours. Receipts in the Northwest were light, Minneapolis and Duluth reporting only 364 cars, as again 762 on the corresponding day last year. The export clearances were more liberal than for a day or two, and there seemed few bright spots in the news of the day for the bears. The market held firm near 671/2c for May for the greater part of the session, at one time going 1/3c higher than that figure. Closing cables, however, were generally lower, and on them the price slid down a fraction, closing about 4c under the top figure of the day. May opened at 67%c, advanced 14c, then 14c, lost 14c gained 3c and reacted 14c, to close at 67%c Corn receipts were III cars in excess of the estimate, but mild, rainy weather and the firmness in wheat acted as an offset and prices held firm. Fluctuations were confined to a limit of %c for May, which opened unchanged at 20% of It advanced to opened unchanged at 39%c. It advanced to 40c, lost %c and reacted 4c, to close at 39%c, 4c under the top figures of the day. Oats were a shade firmer, due entirely to sympathy with corn. May opened unchanged at 30%c, and with its fluctuations confined to a 1/3c range, closed at the top, at 30%c. The provision market was easier and dull. Hogs were quoted 5c higher, and the opening prices were the best of the day. From lack of support prices gradually slid down, but with no pronounced break. As compared with last night, January pork is 71/20 lower, lard .121/20 lower and any ribs 100 Estimated receipts for to-morrow are: Wheat, 140 cars; corn, 370 cars; oats, 185 cars; hogs, 15,000 head. Leading futures
